*1. ✓✓ = recommended // ✓ = compatible // ✖ = incompatible

*2. Media can be used as 2TB on EOS R1, EOS R5 Mark II, EOS R3 (requires camera firmware v1.7.1 or later), EOS R5 (requires camera firmware v2.0.0 or later), EOS 1D-X Mark III (requires camera firmware v1.9.0 or later).

*3. Camera firmware doesn't support 4TB yet. Please check with the camera manufacturer for updates.

*4. Media works, but not officially approved by RED. The damage of cameras or devices caused by it will **NOT** be covered by RED warranty. **We recommend using one of their approved cards.** For approved media, please see HERE.

*5. Media works, but is not VPG400 certified. **We recommend using VPG400 supported cards.**
