# 4K 12x Tracking PTZ Camera

## Brand New 4K AI Tracking PTZ Camera

The Datavideo 4K Auto Tracking PTZ Camera PTC-285 is a high-performance solution for live production environments. This camera operates at 4K 50/60p with advanced auto-tracking capabilities. It can be controlled via a traditional RS-422 serial port or through IP remote control using DVIP (Datavideo's proprietary protocol) or Sony VISCA over IP. Notably, the PTC-285 series supports dual streaming output, making it ideal for A/V market applications, and enables easy streaming to platforms like Facebook (RTMPS), YouTube, and dvCloud.

Furthermore, the PTC-285 models are compliant with the ONVIF Profile S standard, ensuring compatibility and interoperability across various network video environments.

To meet different workflow needs, Datavideo offers multiple models, including the PTC-285T 4K HDBaseT version for long-distance high-quality signal transmission and the PTC-285G with 12G-SDI output for professional-grade video production requirements. Users can flexibly choose according to their actual working environment and personal preferences to achieve the desired shooting effect. Additionally, the PTC-285 and PTC-285G cameras support NDI functionality.

PTC-285T

PTC-285

## PTC-285/ PTC-285T/ PTC-285G

- 2160p50/59.94/60 PTZ camera
- Supports Auto tracking function
- 1/2.8" CMOS
- 12x Optical Zoom, 16x Digital Zoom
- 4K Video outputs: HDMI 2.0, 3G-SDI, H.264/H.265 Streaming
- 2160p and 1080p (3G-SDI) Simultaneous video output
- RS-422 Serial Control
- DVIP (Datavideo Proprietary Protocol) Control
- Supports Sony VISCA via browser and VISCA over IP Protocol
- External audio input: 3.5mm audio in (mic in or line in)
- User friendly web UI via browser & app (iOS and Android)
- Dual streaming: 2160p and 480p simultaneously
- The PTC-285 and PTC-285G cameras support NDI | HX3 and NDI | HX2 technology.
- Compliant with the ONVIF Profile S standard.
- Support DC and POE power supply

### Quick Access to Camera's Auto tracking

You will be allowed direct access to auto tracking via various external controllers such as the supplied RMC-1AT remote control and DVIP controllers (RMC-300A, PTC View Assist, etc.)

In addition to camera controllers, you can also easily enable auto tracking on smart switchers which include KMU-200, SHOWCAST 100, etc as well as complete solution systems like ZR-1 Hybrid Video Production Solution.

### Custom AI Object Tracking

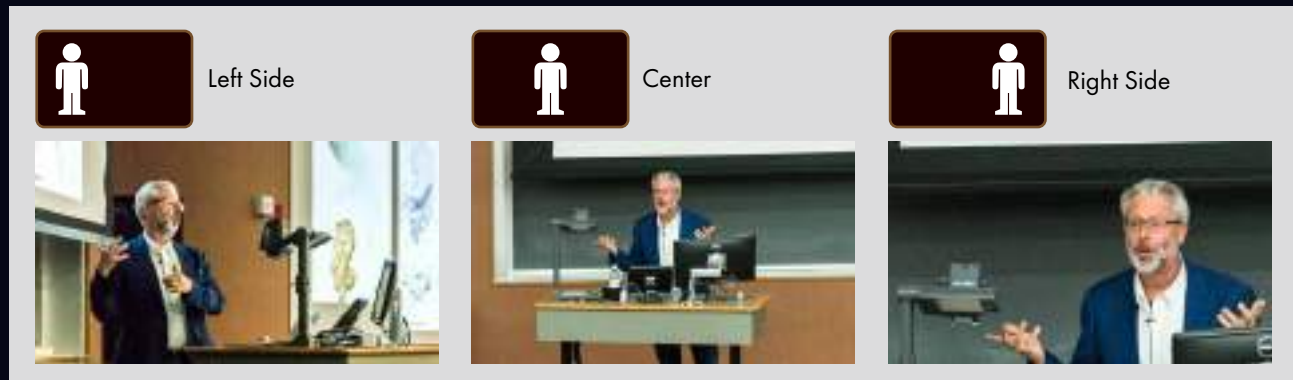

If you are filming multiple people, you can designate a person for Auto tracking. Once linked to the camera, only the designated person will be tracked, avoiding interferences such as the desks, people coming back and forth, large objects, etc.

### Talent Position: Center / Left Side / Right Side

The positioning of talent depends on the videographer's creativity and intent rather than strict rules. Different positions can convey various emotions, messages, or visual effects. A centered composition provides a sense of stability and balance, suitable for scenes that require highlighting the main subject. Videographers may also place the talent on the left third or right third of the frame, leaving adequate space in the foreground to showcase the talent's sight direction or potential future possibilities.

### Quick Access to Framing Options

All of the PTC-285 camera series include RMC-1 controller. User can quickly select full-body, half-body and close up framing, making it easy to change the shooting scene and framing requirements.

### Smart PTZ Speed Adaptation

The integrated PID algorithm is able to detect the movement speed of the identified object and automatically adjust the camera's corresponding pan, tilt and zoom speeds in such a way that the lens movement will be smooth, avoiding common camera lens movement problems like jerky movements or unpredicted halts.

### S-Shaped Speed Curve

Just like how the lift accelerates or decelerates, the camera lens movement will be smooth, avoiding jerky movements that are visible to naked eyes.

## Various Control Options

Control real-time pan, tilt, and zoom camera movements using the Datavideo PTZ View Assist app, RMC-300A, and RMC-180 series, with configurable preset positions supported.

SHOWCAST 100

PTZ View Assist

RMC-180 MARK II

RMC-300A

## Multiple Simultaneous Video Outputs

Supports simultaneous HDMI 2.0 output up to 2160p 50/60, as well as 3G-SDI output up to 1080p 50/60.

streaming

4K HDMI

3G-SDI

## Supports 12G-SDI Output

The PTC-285G is equipped with a 12G-SDI input/output port, designed to deliver ultra-high-definition 4K SDI video content, ensuring detailed and smooth imagery. It is seamlessly compatible with other professional broadcast-grade 12G-SDI devices, creating an integrated, high-quality video production experience.

12G

## Multiple Network Protocols with Dual Stream Function

Supports RTSP and RTMP protocols, making it easy to stream directly to two different CDN platforms, including Datavideo dvCloud.

## One Ethernet Cable with NDI® | HX Technology

There is no need for multiple cables or complicated setup. The single-wire concept allows you to transfer video, audio, power, tally, and control using just one Ethernet cable.

Power over Ethernet (PoE) functionality enables you to transmit all data and power over a single cable.

NDI® is a registered trademark of NewTek, Inc.

NDI HX3

## NDI® Virtual Input

The PTC-285, as a video input source, can be used with various platforms: Skype, GoToMeeting, WebEx, Zoom, and more.

### Broadcast-Quality 4K HDMI / 3G-SDI PTZ Camera

Supports resolutions up to 2160p 50/60.

12x optical zoom for the PTC-285 series provides high-quality video.

### Low-Noise in Low-Light CMOS Effectively ensures high SNR for video quality

Advanced 3D noise reduction technology further reduces noise while maintaining image sharpness.

### RS-422, DVIP, and Ethernet Camera Control

RS-422 and Ethernet allow the use of DVIP or VISCA over IP commands to integrate with larger control systems.

### Compliant with the ONVIF Profile S Standard

The PTC-285 series cameras are compliant with the ONVIF Profile S Standard, ensuring seamless integration and interoperability in network video systems.

### Supports H.264/H.265 video compression

Supports compression of resolutions up to 3840x2160 with frame rates up to 59.94 or 60 fps, and a second channel with 720x480p compression. AAC, MP3, and PCM audio compression are also supported.

### Tally Light

Green and red tally lights indicate preview and program status for broadcast applications.

Simply enable Auto tracking  
with your IR remote control

**RMC-1AT** PTZ Controller

# All you need is a remote control to set and control all four cameras and save the four presets.

## Menu

Press the Menu button to open the camera's OSD menu which will show you all functions of the PTC-285.

## Focus

Ergonomic design to ease manual focus adjustment.

## Return

This returns the camera lens position to the Home position. When the OSD menu is opened, this button returns to the previous menu hierarchy level.

## AF Auto Focus

Press the AF button to turn on/ off auto focus function.

## AT Tracking Enable

The AT button activates the auto tracking function of the PTC-285 series with one key. User can quickly select full-body , half-body and close up framing, making it easy to change the shooting scene and framing requirements.

## Power

Press to activate the camera or enter standby mode.

## Camera Selection / Setting

Select to set or control up to four cameras.

## Camera Presets

Each camera is allowed up to four presets which store the camera's current pan, tilt and zoom position, as well as settings such as iris, focus and movement speed. Presets allow quick access to settings required for specific camera shooting.

## Zoom

Sets zoom speed and zooms in and out.

## Micro Joystick

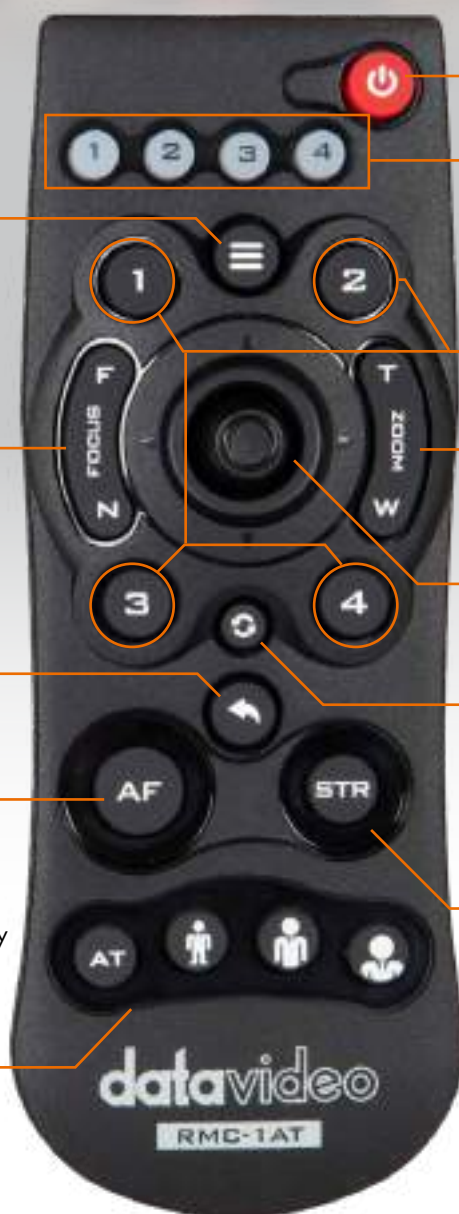

The joystick controls the pan and tilt directions or selects options or values while the OSD menu is opened.

## IP Address Reset

Press and hold to restore the default IP address.

## Store

Saves the current pan, tilt and zoom settings of the camera as well as settings such as iris, focus and movement speed to presets 1 to 4.

Monitoring

## PTZ View Assist

### Control up to four cameras with your Tablet

The camera control app is tailored for the Datavideo PTZ camera series. It can monitor live streaming video from the PTC-140, PTC-145, PTC-280, PTC-285, PTC-300, and PTC-305 series.

The app can control up to four cameras simultaneously via DVIP. You can intuitively set up and recall presets, and adjust white balance, focus, and iris. The app can decode live streaming via RTSP and SRT, making it easy to monitor the live video stream and promptly set up parameters in a single application.

Datavideo provides both iOS and Android versions, available for free on Google Play and the App Store.
