MICROPHONES

**S-MIC 3 + S-MIC 3S**

# S-MIC 3 + 3S

The ultimate companions for pro filmmakers, sound mixers and documentarians. Designed with gold-plated diaphragms, they ensure pristine sound reproduction with unparalleled clarity. Moisture-proof construction makes these mics ideal for humid conditions, providing reliability wherever your creative journey takes you.

The S-Mic 3 and 3S are equipped with

low-noise circuits and designed to suppress RF interference. With a remarkable 12dB-A noise floor and -18dB off-axis rejection, unwanted sounds are a thing of the past.

Both mics boast ultra-light aluminum alloy shells and sleek design. With a frequency response range of 50Hz to 20kHz and a max SPL of 130dB, these microphones deliver smooth tone and low off-axis coloration, elevating your audio recording to new heights.
