- **Collapsible beauty-dish design:** included diffusion cloth & gold/silver inner baffle reflector
- Enhance contrast with **included 40° light control grid**
- **Compact & portable** for travel & tight spaces

## Target Audience

The Light Dome Mini III is the ultimate compact, quick, and portable softbox designed for **studio photography & video professionals** using Bowens Mount lights

**Photo & video professionals** work on various projects, from commercials to corporate videos or studio portraiture. These productions can be fast-paced, with little time for setup and teardown. The Light Dome Mini III's new folding design **saves valuable time on set** – every second counts.

Whether they are **videographers or photographers**, they have limited space to store and transport their equipment to each location, making every cubic inch incredibly valuable. The Light Dome Mini III packs down flat, **freeing up more space for essential tools** than cylindrical quick softboxes.

**Professional photographers** who appreciate and prefer the light **quality of a beauty dish** but find using and storing them cumbersome will also appreciate the Light Dome Mini III's similar light quality in a **more portable design**.

These professionals typically own a diverse equipment portfolio ranging from cameras to lighting and sound, work as solo operators or with a small crew, and therefore require complete yet compact solutions that improve their workflow – like the Light Dome Mini III.

## Product Description

The Light Dome Mini III is Aputure's compact circular softbox solution for Bowens Mount lights. Its 2ft (60cm) beauty-dish-style design features an all-new quick-folding, flat-pack design. Add a touch of softness and save valuable time on set, with the ideal small softbox for your lighting kit.

**Start shooting sooner with the all-new quick-folding design.** Building the Light Dome Mini III is now faster than ever, saving valuable time on set. Being among the fastest circular softboxes to set up and break down on the market, the Light Dome Mini III can snap into its full compact circular shape in seconds so you can start shooting sooner.

**More room for lights with its flat-pack design.** Unlike traditional quick softboxes that maintain their cylindrical shape when packed, the Light Dome Mini III's quick-setup speed ring folds into a slim, flat profile. Its flat-pack design requires less setup time and frees up more space for other filmmaking tools, making it more portable and travel-ready.

**Simplify your toolkit with one softbox for all your Bowens lights.** Like other Aputure softboxes, the Light Dome Mini III utilizes the universal Bowens Mount, making it the perfect pairing for any modular Aputure or amaran point-source fixture. With the ability to use just one modifier with an array of Bowens Mount LED fixtures, this versatile softbox reduces the size of your toolkit, allowing professionals to work smarter, not harder.

**Take soft lighting anywhere with our compact footprint.** The Light Dome Mini III provides the quick-setup and slim profile benefits of the Light Dome III in a smaller build. With the Mini III, you'll have everything you need for small-footprint lighting, including the folding speed ring, diffusion cloth, a gold / silver reflector, and a 40° fabric light control grid, the Light Dome Mini III is the ideal modifier for finetuning the perfect lighting.
