#### Understanding Quick setup of CV730-NDI with NDI®|HX

This section explains how to quickly configure the Marshall CV730-NDI camera with NDI®|HX.

It also explains how to update the device, and where you can find additional NDI software to extend your workflow. Complete NDI® Tools can be found here: https://www.ndi.tv/tools/

Here you will choose whether you will require NDI® Tools for Windows or Mac and download.

After completing this short section, you will be all set to begin using your new NDI®|HX camera.

**OVERVIEW:** Unlike typical cameras, CV730-NDI leverages the easy plug-n-play benefits of the NDI-based IP workflow supported by leading video software and hardware developers around the globe.

GETTING READY: Your new CV730-NDI uses the NDI®|HX protocol for audio/video transmission, and more. Your first step will be to install NDI/HX drivers if using a TriCaster, or Microsoft HEVC decode on non-TriCaster systems, as appropriate for your computer platform or device.

- 1. Navigate to ndi.tv/formats in your web browser and follow the relevant directions to download and install the drivers for your computer platform. NOTE: The NDI/HX driver also installs NewTek's NDI Studio Monitor application, which will not only display the output of your camera but also provide easy access to its settings. Also contains built-in PTZ controls.
- 2. NDI Studio Monitor and other useful NDI tools can be found here: https://www.ndi.tv/tools/
- 3. Then simply plug the Ethernet (NDI) port to same Network your computer or Newtek equipment are plugged into and off you go.

**NOTE:** The End User License Agreement under which you use the NDI/HX driver specifies that "you may use up to five (5), and no more than five, copies on separate machines at one time."

OPTIONAL - for Microsoft Windows® users, downloading and installing the NewTek NDI® Tools pack, available at no cost from ndi.tv/tools/, the download pack will provide learning tools and utilities to maximize your NDI®|HX experience.

FINAL NOTE – if you are experience any problems with the NDI® platform, NDI® software, NDI® drivers please contact Newtek for technical assistance or join the NDI community to review HOW-TO videos, social media, forums, blogs: www.ndi.tv/community

If you are having a hardware problem, and need assistance please contact Marshall Electronics.

## **Chapter 1 Safety Instructions**

Always follow these safety instructions when setting up and using this product:

#### 1 Operation

- 1.1 Please use the product in the recommended operating environment.
- 1.2 Do not place this product in tilted position.
- 1.3 Do not place the product on an unstable trolley, stand or table.
- 1.4 Do not use this product near water or source of heat.
- 1.5 Use attachments only as recommended.
- 1.6 Use the type of power source indicated on this product. If you are not sure of the type of power available, consult your distributor or local electricity company for advice.
- 1.7 Always take the following precautions when handling the plug. Failure to do so may result in sparks or fire:
- Ensure the plug is free of dust before inserting it into a socket.
- Ensure that the plug is inserted into the socket securely.
- 1.8 Do not overload wall sockets, extension cords or multi-way plug boards as this may cause fire or electric shock.
- 1.9 Do not block the slots and openings in the case of this product. They provide ventilation and prevent this product from overheating.
- 1.10 Except as specifically instructed in this User Manual, do not open or remove covers, otherwise it may expose you to dangerous voltages and other hazards. Refer all servicing to licensed service personnel.
- 1.11 Unplug this product from the wall outlet and refer servicing to licensed service personnel when the following situations happen:
- If the power cords are damaged or frayed.
- If liquid is spilled into the product or the product has been exposed to rain or water.
- 2 Installation
  - approved by agents.
- 3 Storage
  - 3.1 Do not place the product where the cord can be stepped on as this may result in fraying or damage to the lead or the plug.
  - 3.2 Never push objects of any kind through cabinet slots. Never allow liquid of any kind to spill into the product.
  - 3.3 Unplug this product during thunderstorms or if it is not going to be used for an extended period.
  - 3.4 Do not place this product or accessories on top of vibrating equipment or heated objects.
- 4 Cleaning
  - liquid or aerosol cleaners.
- 5 Remote control (if the accessories are equipped with remote control)
  - local instructions on how to dispose of used batteries.

2.1 For security considerations, please make sure the standard hanging rack you bought is in line with UL or CE safety approbations and installed by technician personnel

4.1 Unplug all the cables before cleaning. Use a damp cloth for cleaning. Do not use

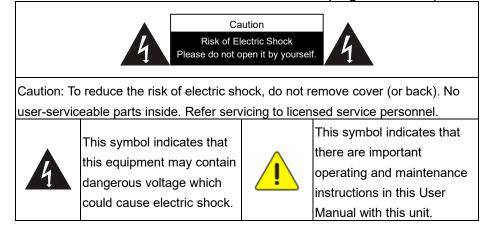

5.1 Using an incorrect battery type in the remote control may result in breakdown. Follow

www.marshall-usa.com

#### Precautions

Warning: To reduce the risk of fire or electric shock, do not expose this appliance to rain or moisture.

If the UHD camera will not be used for an extended time, unplug it from the power socket.

#### ■ FCC Warning

This UHD Camera has been tested and found to comply with the limits for a Class A computer device, pursuant to Article 15-J of FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

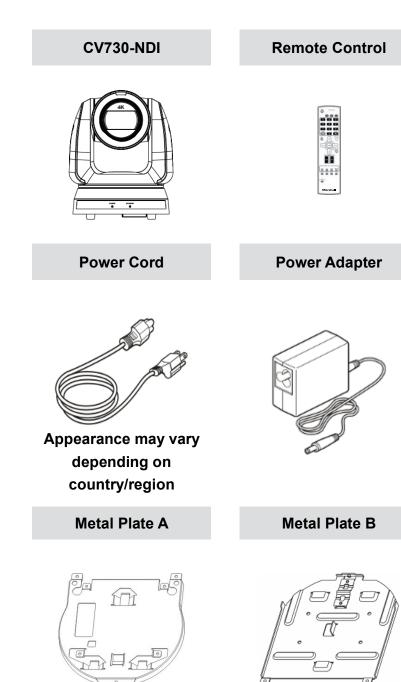

This digital apparatus does not exceed the Class A limits for radio noise emissions from digital apparatus as set out in the interference-causing equipment standard entitled "Digital Apparatus," ICES-003 of Industry Canada.

Cet appareil numerique respecte les limites de bruits radioelectriques applicables aux appareils numeriques de Classe A prescrites dans la norme sur le material brouilleur: "Appareils Numeriques," NMB-003 edictee par l'Industrie.

#### ■ EN55032 (CE Radiation) Warning

Operation of this equipment in a residential environment could cause radio interference.

#### 3.1.3 Bottom

NO.	Item	Function Descriptions
17.	Mute cooling fan	The cooling fan automatically controls its rotation speed and
		performs cooling in cope with the operation temperature of the
		machine
18.	Tripod deck lock	The camera is mounted on a (specification) 1/4" - 20 UNC tripod
	hole	deck
19.	Rotatable foot	When using the metal plates of accessories, remove 4 pieces of
		rotatable food pads on the bottom by rotating counterclockwise, and
	pad	then install the mental plates

#### 3.2 Description of LED indicator

Status	Power	Standby
Startup in progress (initialization)	Green light	Orange light
In use	Green light	No indicator
In standby mode	No indicator	Orange light

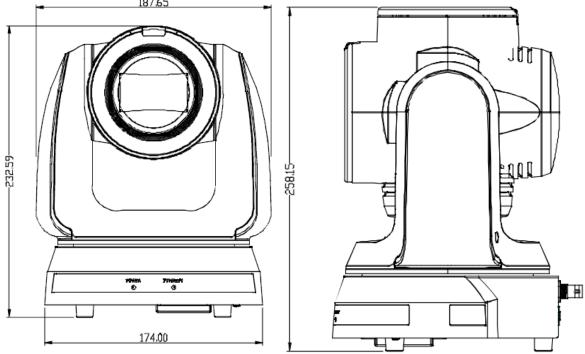

#### 3.3 Tally Lamp Function Description

- 3.3.1 Tally Lamp function may be enabled through the control of RS-232 command. The setting method is as follows:
  - Tally Mode: 8x 01 7E 01 0A 01 0p FF
  - p = 0: OFF
  - p = 4: Red light (half-brightness)
  - p = 5: Red light (full-brightness)
  - p = 6: Green light (full-brightness)
  - p = 7: Orange light (full-brightness)

## **Chapter 4 Instruction for installation**

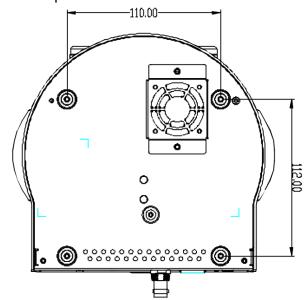

#### 4.1 Camera dimension:

- 4.1.1.1 Camera front view and side view
- Length x width x height: 232 x 188 x 189 mm
- Weight: 3.0Kg (excluding the metal plate) 187.65

#### 4.1.1.2 Camera base

The camera base has tripod mount lock holes and can be installed on the tripod deck of a standard specification 1/4"-20 UNC.

## Marshall

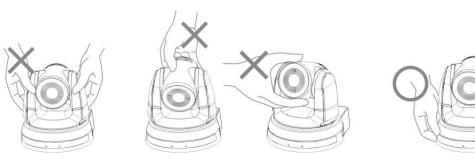

#### 4.2 Preparation before installation

Installation and connection of CV730-NDI UHD camera requires special skills. To install by yourself, please follow necessary steps, ensure steady and tight installation of the device, and pay attention to your safety to avoid any accident.

- 4.2.1 Ensure the safety of the installation environment. Please do not install the device on unstable ceiling or in a place where the device is in danger of falling to avoid any accident.
- 4.2.2 Please check whether accessories in the box are complete or not. Please contact the supplier for any shortage, and make sure to keep the accessories in the box intact.
- 4.2.3 Please choose a proper place for installation of camera in advance. Please determine an installation place according to the following requirements
- 4.1.1.1 Confirm the position for the object to be captured.
- 4.1.1.2 Confirm whether the camera is set at a proper distance from other light sources.

#### 4.3 Instruction for installation

- 4.3.1 I would like to install camera on the desk
- 4.3.1.1 Precautions for installation
  - Please install the machine on a flat desk
  - Do not grab the camera head by hand when handling the device
  - ◆ Do not rotate the camera head by hand. Improper rotation may result in breakdown of the camera

4.3.1.2 Installation steps

1. Place the camera on a flat desk directly to ensure the normal vertical and horizontal operation of the machine

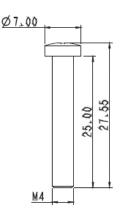

#### 4.3.2 I would like to install the camera on the ceiling

- 4.3.2.1 Prepare for the parts and equipment required during the installation
  - 1. Accessories in the box (metal plates A, B, M3 screw silver x 8, black x 2)
  - 2. Screw for locking on ceiling mounted hanger x 4
  - 3. Drilling machine, screwdriver, ladder

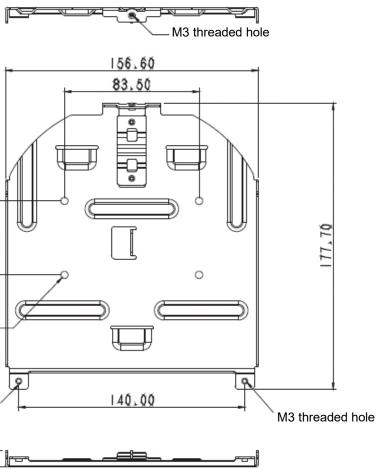

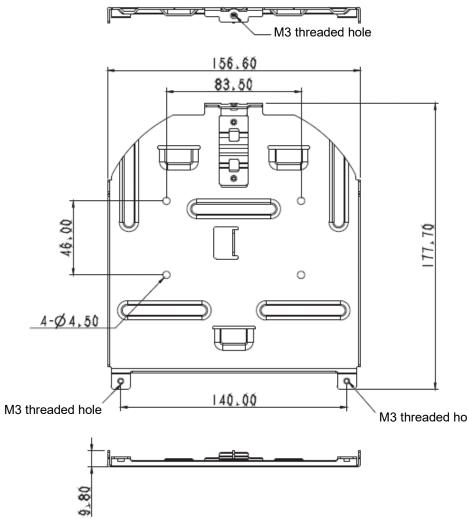

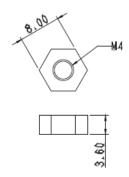

Metal plate B - ceiling side

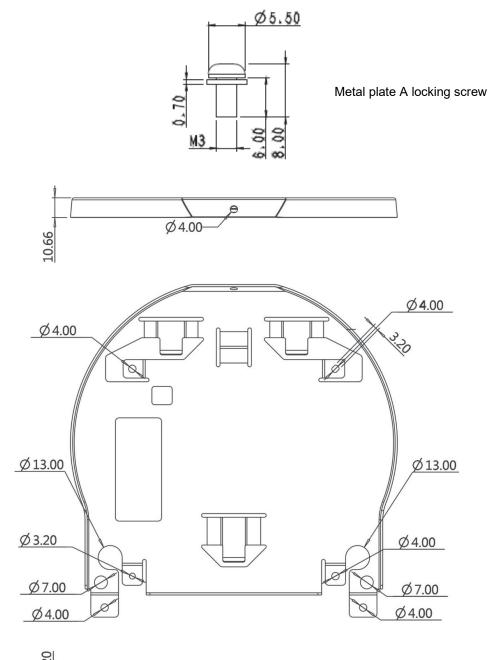

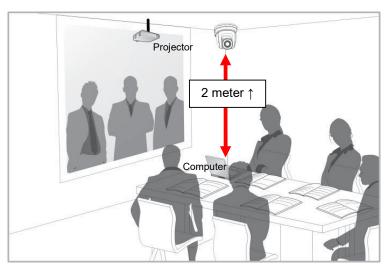

Metal plate B locking bolt

Metal plate A - machine side 

- 4.3.2.3 Precautions for installation
  - object to be captured
  - according to the magnification of the lens

- approval to prevent the machine from falling.
- dissipation effect of the machine on a regular basis.
- 4.3.2.4 Installation steps
  - pads counterclockwise.

future use.

1. Before installation, please confirm the orientation of the machine relative to the

2. It is recommended that the machine should be set at a distance more than 2 meters away from the object to be captured. Please adjust for a best distance

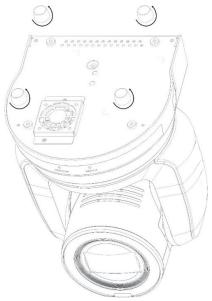

3. The machine (including metal plates) is weighed at about 3 kg. If it is to be installed on the ceiling, please use the hanger that has obtained UL security

4. Please check whether the camera is installed securely on a regular basis.

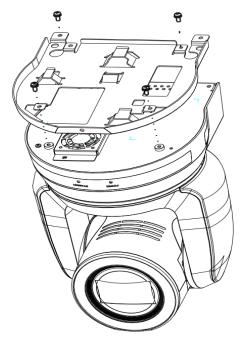

5. Please clean the cooling fan located at the bottom to ensure the good heat

1. Remove 4 pieces of foot pads on the bottom of the camera by rotating the foot

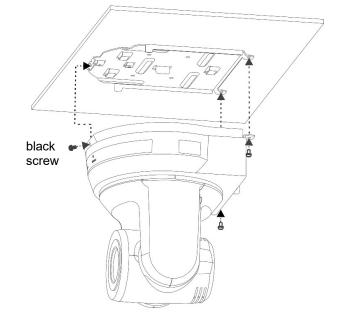

#### <Remark>Please keep the foot pads properly after removal and store them for

2. Fix the metal plate A on the machine base with 4 M3 silver screws

- 3. Lock the metal plate B on ceiling mounted hanger <Caution>:
- (1) Please use the hanger that has obtained UL security approval
- (2) Please reserve the hole for the connecting wires of the camera
- 4. Combine the metal plate A and the metal plate B
  - (1) Push the metal plate A up to the ceiling and then to the right to latch the metal plate B
  - (2) And then secure with 2 M3 silver screws and 1 M3 black screw

#### 4.3.2.5 How to remove

- 1. Remove the connecting wires from the camera
- 3. Then remove the screws on the hanger and the machine

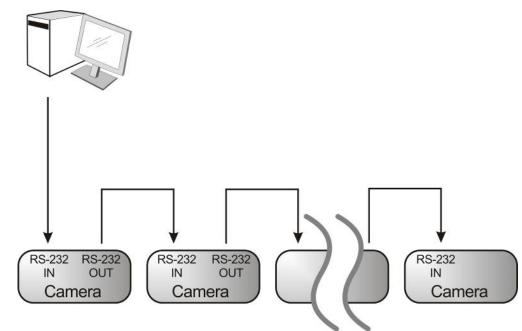

## Marshall

2. Uninstall the camera together with the ceiling, loosen the three screws that fix the metal plates A and B and push to the left to remove the machine

#### 4.4 Connecting devices

4.4.1 Connecting RS-232

With RS-232 in/out, at most 7 Marshall cameras can be connected.

## **Chapter 6 Network Function Settings Description**

#### 6.1 Connecting Camera to Network 6.1.1 Connecting to Internet

Two common connection methods are shown below

1. Connecting via switch or router

2. To connect directly through network cable, the IP address of the computer should be changed so that it is on the same network segment as the camera e.g.: The factory-preset default IP address of camera is 192.168.100.100. The computer IP address must be set with the same network segment, such as 192.168.100.101, so that the computer can be connected correctly with the camera

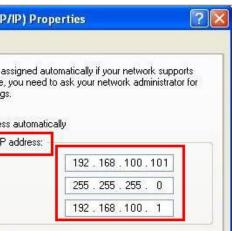

Camera

#### FCC Declaration of Conformity 47 CFR § 2.1077 Compliance Information

#### **U.S. Contact Information**

**Company : Marshall Electronics, Inc.** 

- Address : 20608 Madrona Ave., Torrance, CA 90503
- : support@marshall-usa.com e-mail

#### **FCC Compliance Statement**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions : (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

#### Warranty \_\_\_\_

Marshall Electronics warranties to the first consumer that this device will, under normal use, be free from defects in workmanship and materials, when received in its original container, for a period of three years from the purchase date. This warranty is extended to the first consumer only, and proof of purchase is necessary to honor the warranty. If there is no proof of purchase provided with a warranty claim, Marshall Electronics reserves the right not to honor the warranty set forth above. Therefore, labor and parts may be charged to the consumer. This warranty does not apply to the product exterior or cosmetics. Misuse, abnormal handling, alterations or modifications in design or construction void this warranty. No sales personnel of the seller or any other person is authorized to make any warranties other than those described above, or to extend the duration of any warranties on behalf of Marshall Electronics, beyond the time period described above.

Due to constant effort to improve products and product features, specifications may change without notice.
